

CONGRESS PUSHES SANCTIONS TO ENFORCE LGBT, PROSTITUTION AGENDAS

We quote:

“H. R. 3800; this Act may be cited as the
Greater Leadership Overseas for the Benefit
of Equality Act, or GLOBE Act.”

“Purpose: to protect human rights and
enhance opportunities for LGBTQ¹ people
around the world.”

“Sponsor: Congresswoman Dina Titus²”

“Cosponsors: 123”ⁱ

That is the bill which was proposed to the ongoing 117th US Congress on 8 June 2021. Deliberations on the bill are still taking place. As I *proved* in *A History of LGBT Pride*ⁱⁱ, the “LGBT movement” has always been, and will always be, a shallow bourgeois excuse for leveraging imperialist measures on the world’s working

¹ Before long, they will be singing the whole alphabet!

nations. This bill proves my assertion all the more.

We must note that the document has not yet been passed; but our concern for the present moment is not whether it is approved or rejected, but rather, *its implications* – who, in an unashamed defense of world capital, will argue in support of this bill? Who, standing against world capital, will dare to criticize it?

Let us go through some of this legislation:

Congress finds that **the norms of good governance and human rights have been violated with respect to lesbian, gay, bisexual, transgender, queer, and intersex (LGBTQI) peoples in an overwhelming majority of countries around the world,** where LGBTQI people face violence, hatred, bigotry, and discrimination because of who they are and whom they love. **In at least 68 countries, same-sex relations and relationships are criminalized.** Many countries also criminalize or otherwise prohibit cross-dressing and gender-affirming treatments for transgender individuals.

Three things must be mentioned here:

First: cross-dressing is a fetish and “affirming” mental illness is abuse. And what is “queer”, even? You’re included in the alphabet-soup community for even *appearing* gay? When I was

younger, nobody would dare proclaim themselves a “queer”. Then again, they also wouldn’t proclaim themselves “furries” or “women in men’s bodies”.

Second: they go on about how the “*overwhelming majority of countries criminalize LGBT*”, are “bigoted”; at least 68 prohibited gay “marriages”, etc.

What are these *bigoted, backwards* countries that Congress warns us about?

They are the world's working nations, where there is no surplus of capital to breed the mindset of non-reproductive leisure-sex, the homosexual is seen as an enemy of civil society.

This is contrasted to, as we see, the imperialist nations, the banking nations, where the homosexual is not only tolerated, permitted, even celebrated; no, here, the homosexual is so special that the leading imperialist governments craft legislation specifically in their favor.

Why do they do this? The imperialists do this because they see the homosexual *as an automatic agent of foreign intrigue*, since *it is only the foreign imperialist* who can grant the sexual outcast's "*right*" to sexual impulse. Congress not only admits this themselves: they go as far as *formalizing* the process, building an *actual state-sponsored homosexual network across the globe*:

"There has been established an interagency group for responses to threats to LGBTQI people in foreign countries, that shall be chaired by the Secretary of State and include the Secretary of Defense, the Secretary of the Treasury, the Attorney General, and the head of every federal agency the President determines is relevant to the duties of this group."

"In 2015, the Department of State established the position of Special Envoy for the Human Rights of LGBTQI Persons."

“In 2021, **President Joe Biden** stated that it is the policy of the United States to end to discrimination on the basis of sexual orientation or expression and **called for United States global leadership on LGBTQI rights.**”

The management of homosexual agents-by-fact in foreign countries is a task so special, so valuable, that it is left to the leading officials of the American State.

Third: “LGBTQI people face violence and hatred because of who they are and whom they love”. True! So do practitioners of consensual, non-reproductive incest. Can the reader think of an argument in support of “LGBTQI” (ABCDEFGF) which does not also justify the most barbaric perversions? I have witnessed it with my own eyes: one is *completely incapable* of justifying homosexuality without justifying incest, or worse yet, *pedophilia* – which is why Congress explicitly advocates for the sexual grooming of children in their new bill, under the guise of “protecting homosexual youths” – the “homosexual youth” being something that *can only exist in the mind of someone who believes children have sexual inclination, i.e., only in the mind of pedophiles.*

The Congress of Pederasts writes:

Anti-LGBTQI laws pose significant risks for LGBTQI youth and often face rejection,

homelessness, and limited educational and economic opportunities. Studies have shown that when LGBTQI people, especially **LGBTQI youth**, face discrimination, they **are less likely to seek HIV testing, prevention, and treatment services.**

They *imply* that *sexual diseases* are a *natural problem* among *children in general* – thus, they imply that *sexual contact* is a *natural occurrence* among children *in general*.

Then, without a hint of irony, they switch to writing *in defense of prostitution*:

“Because they face tremendous discrimination in the **formal labor sector**, many **sex workers** are also **LGBTQI individuals**, and many **sex-worker-led programs and clinics** serve the **LGBTQI community** with safe, non-stigmatizing, medical and social care. **The anti-prostitution loyalty oath that health care providers receiving United States assistance must take isolates sex-worker-led and serving groups from programs and reinforces stigma [Stigma against prostitution? The horror!]. undermining human rights.** The Supreme Court found this requirement unconstitutional in 2013.”

The Congress of Pederasts can't even bring themselves to say “prostitutes” – “sex workers”, they say! And they call prostitution, sex-parasitism, rape, a “*human right*”! They call it

“formal labor”! They press legislation to normalize and legalize it!

Imagine, as a woman, reading this filth: “Sorry, mother, but you are not worth our troubles – you should have been not a mother, nor a doctor nor teacher, *but a whore* – your right isn’t to motherhood, *but to whoredom*, dirty creature!”

And what will the “LGBTQI” brigade say about this? After all, they are by their very nature in a state of hopeless confusion about even the most basic functions of sex, of men, and of women. They see humans as nothing more than *sexual toys*, as conduits of sexual pleasure, for if they didn’t, they would see at once that a man having sex with a man is senseless, excludes the primary function of sex (reproduction), and reduces the entire relation to a parody intended to produce immediate sensory pleasure.

And what should we say about the fact that Congress is apparently pushing both the “oppressed” *prostitute* and the “oppressed” *sexually-inclined child* (who has definitely not been groomed) into a single identity – the “LGBTQI”? It is obvious where they are going with this. Only a stupid, porn-addled degenerate could fall for this agenda – the same agenda which has launched such a hysterical war on nature that it mandates five years of prison time for teaching the necessity of heterosexual

reproduction to one of those defiled children in the grooming-house called “Canada”ⁱⁱⁱ.

And it is an agenda indeed, a *global* one, born in the rooms of Bilderberg and the WEF – a Malthusian agenda devised by, as they call themselves, “child-lovers”. Just recently in Italy, the age of consent was lowered to 14-years-old, and pornography was legalized among this age-group as well. Meanwhile, the globalist media outlet *USA Today* put out an article titled *The Complicated Research Behind Pedophilia*^{iv}, which unabashedly claimed that “pedophilia describes an attraction developed in the womb, not an action, and using it interchangeably with abuse fuels misperceptions.” In other words, they used the same argument LGBT+ has been using for a century, just as I said they would in *History of LGBT+*.

Work diligently, perverts – lest Maxwell release the tapes!

Congress then lets us know who is supplying the information which motivated this legislation:

The World Bank has begun to measure the economic costs of criminal laws targeting LGBTQI individuals through lost productivity, detrimental health outcomes and violence, as a step toward mitigating those costs.

Go figure – the World Bank. Could we expect cosmopolitan sexual legislation to originate anywhere other than the seat of global finance monopoly?

Keep on, American Congress and world-bankers – *you are so progressive!*

The Congress of Pederasts finally tells us their solution:

Targeted sanctions are an important tool to push for accountability for violations of the human rights of LGBTQI people. Asylum and refugee protection are critical last-resort protections for LGBTQI individuals.

“Starve, foreigners, and keep starving until you bow to our agents – in the name of equality and human rights, of course.”

The “progressives” of the West will cheer on this act of war in the name of perversion – indeed, watch as they decry this article for being *homophobic*, i.e. too *rude* to them, while they cheer on the real physical starvation of the imperialized nations.

Can there be any wonder, why the “overwhelming majority of countries” have no trust in these people, and want nothing to do with them? Only the bourgeois or the labor-aristocrat could become so estranged from labor and matter that the “right” to the anus supersedes the biological *necessity* of human

reproduction. They are happy agents, more than willing to surrender their entire country to the domination of global finance capital over nothing more than a sterile orgasm.

Whether Congress passes the bill or not, it doesn't matter – watch carefully who *defends* this bill, and who attacks it. Watch the response that this essay will get. It will prove everything succinctly.
